100 TO ANY MAN.

Will pay \$100 for any case of weakness in men they treat and fail to cure.

An Omaha County places for the first time before the public a MAGICAL TREATMENT for the cure of Lost Nerve, Nervous and Sexual Weakness, and Restoration of Life Force in old and young men. No worn-out French remedy, contains no phosphorus or other harmful drugs. It is a WONDERFUL TREATMENT—magical in its effects—positive in its cure. All readers, who are suffering from a weakness that blights their life, causing them mental and physical suffering peculiar to Lost Nerve, should write to the SAFE MEDICAL COMPANY, Suite 608 Range Building, Omaha, Neb., and they will send you absolutely FREE a valuable paper on these diseases, and positive proofs of their true MAGICAL TREATMENT. Thousands of men, who have lost all hope of a cure are being restored by them to a perfect condition.

This MAGICAL TREATMENT may be taken at home under their directions, or they will pay railroad fare and hotel bills to all who prefer to go there for treatment. If they fail to cure, they are perfectly reliable; have no Free Prescriptions, Free Cure, Free Samples, or C. O. D. fake. They have \$250,000 capital, and guarantee to cure every case they treat or refund every dollar; or their charges may be deposited in a bank to be paid them when a cure is effected. Write them today.

SATURDAY, MAR. 26, 1898

The secret of the bitter criticisms of certain free silver papers upon the course of President McKinley lies in the fact that they are forgetting one Wm. J. Bryan just as fast as they can.

Those hot-headed people who are chiding because the President has not plunged this country into a war long ere this, might give a practical proof of their fiery and untamed patriotism by offering their services to the government to fight for Cuba.

EVIDENCES of business improvement under protective tariff and sound money continue to make themselves apparent in the reduction of failures in the business world, those for the last week being, according to Dan's Review, 235 against 266 for the corresponding week of last year.

"I CHURCH thee Kentucky," and wherever the story of the launching of the new battleship is told, brave hearts will bless the noble girl who had the courage to stand by what she believed to be right. Kentucky may boast of the product of her farms and her distilleries, but the proudest and the grandest heritage of this state is her noble manhood and womanhood.

Dix's Review of last week quotes the price of cash wheat at 1.04 1/2 against .81 1/2 at the corresponding date of last year; corn .35 1/2 against .30 1/2 at the corresponding date of last year; land \$5.40 against \$4.50 last year; mow pork, \$10.25 against \$9 last year, while in other farm products there is an equally striking advance. Yet there has been no free and unlimited coinage of silver meantime.

There is no better test of business activity and prosperity than that shown by the traffic of the railroads. Reports from 17 railroads show that the receipts received for the first week of March were 16.7 per cent, greater than in the corresponding week of last year, while 27 roads, whose reports have been received for the second week in March, show an increase of 21.7 per cent over the corresponding week of 1897.

The sending of a torpedo fleet to Havana by Spain can mean but one thing, and that is that she expects war. As President McKinley has adopted a line of action that will put the entire responsibility of a declaration of war on that country, the coming of the fleet is in fact a definite intimation in advance from Spain that she will refuse any request from this government looking towards the payment of an indemnity or the independence of Cuba.

Gold continues to flow into the country at the rate of a million dollars a day, the total for the past thirty days being about \$30,000,000. The gold in circulation in the United States has increased \$100,000,000 since the Chicago platform, and those who supported it announced that there could be no material additions to the circulating medium of the country except through the free and unlimited coinage of silver, while the total increase of money in circulation has been over \$200,000,000.

Bank clearings, which show great business activity, are not the only evidences of prosperity. Last week's issue of Bradstreet's and Dun's show wonderful activity in all business lines all over the country, reports from Chicago, indicating real-estate sales in that city 90 per cent larger than on the corresponding date last year, and lumber sales the best in years; while from St. Louis come reports of a much larger business among jobbers and manufacturers than during the spring of any recent year.

"For international bimetalism the Republican party stands pledged. To secure it all honorable and proper efforts will be put forth; but until it can be secured, it is manifestly for the interest of our people to preserve, by all proper means, the present gold standard. Through it we measure by the same rule with which our competitors measure, and by it we contend in the struggle for commercial supremacy with weapons evenly matched with those of our well-armed antagonists." — From Secretary Cuyler's Cleveland speech.

By all the ridiculous rumors that have appeared lately, the one to the effect that Dr. W. U. Hunter is coming back from Guatemala to run for Congress in the Eleventh district, in which district his home now is, as a result of the latest Democratic gerrymander, is entitled to the blue ribbon. Dr. Hunter would not be able to make even a good start in that district. And then it is hardly probable that he is going to give up a \$10,000 sure job for such an elusive prize as the Republican nomination in that district. But if Dr. Hunter wants some fun, just let him enter the race in the Eleventh district.

The war situation today points to the fact that the crisis has been reached. Spain has taken the initiative and has dispatched a powerful fleet of torpedo boats and torpedo boat destroyers for Cuban waters. That net proves that Spain is bent on war. If that fleet is allowed to reach Cuban waters it will be a most dangerous menace to our fleet at Dry Tortugas and to Key West. This fleet is believed to consist of three torpedo boats and six torpedo boat destroyers. These last boats are very formidable and we have none like them. Should the Spanish fleet reach Havana harbor, which is strongly fortified and land-locked, it would give Spain a most decided advantage, should war occur. As a part of prudence and self-protection, this government ought not to allow Spain a single advantage that she not

now has. The Spanish fleet is coming. The answer of this government must be given quickly. The indications are that the challenge will be accepted and war will result.

Suits Filed.
Mr. Felix G. Rudolph, as administrator of the estate of George Ward, deceased, who died several days ago from injuries having been struck by an Illinois Central train at Tennessee street, yesterday afternoon entered suit in the circuit court against the Illinois Central for \$1,000.

Former Claim Agent John G. Miller, of the Illinois suit in the circuit court yesterday afternoon against the Illinois Central for \$658, alleged to be due for service rendered.

Mrs. Emma Davis asks for legal separation from Mr. Davis, alleging adultery with Emma Matthews, and also libelment. She asks for \$500 alimony and the custody of their child.

Acting Governor Worthington vetoed the anti-cigarette bill. He will probably allow the pure food bill and the others remaining on the desk to become laws.

It is rumored at Frankfort that Governor Bradley will call the legislature in extra session in case of war with Spain, to provide equipment and supplies for state troops.

Phil Dwyer is said to be trying to purchase Plaudit.

HISTORY OF THE MAINE DISASTER.

At 9:25 the night of February 15th, the United States battleship Maine was blown up, afterward sinking in Havana harbor. Several injured members of the crew have since died in hospitals. Over twenty men of the crew were injured, many being injured for life. Two officers, Lieut. Jenkins and Engineer Merritt, went down with the wreck. The Court of Inquiry was detailed by Admiral Sigsbee February 15. February 16 Congress passed an appropriation of \$500,000 for divers' investigations as to the cause of the wreck and for raising of ship if possible. February 17 President McKinley declined a proposition of Spain for joint investigation as to the cause of the disaster. Divers began their work February 24. A singular descent to the Maine wreck had been previously made by Martin Roden, who was a member of the crew. The Court of Inquiry began its sessions in Havana February 22, and completed its investigations March 16. The findings of the board were reached at Key West March 19, and a summary was communicated to the President and Navy Department. The complete report was signed Tuesday night, and Lieut. Mark Lee Key West with it the same night, arriving safely and delivering it to the President in person at 9:41 yesterday morning.

Society Notes.

The Literary club is meeting this afternoon with Mrs. Jackson, corner of Court and Sixth streets.

Miss Lella Goodwin will leave next week for Evansville to visit relatives and friends, of which she has many, who will make her visit very enjoyable.

Miss Nellie Crump, of Columbus, Ind., the guest for several weeks of Mrs. Dr. Williams, will return to her home next week. Miss Crump is a very popular young lady and here, as elsewhere, her departure is always regretted by the numerous friends she makes.

Miss Eveline Long, of Louisville, Ky., who has been visiting her aunt, Mrs. Cochran, for several weeks, will return to her home the latter part of next week. Miss Long has made many friends here who regret her leaving Paducah so soon.

Mr. Robert Rivers has been quite sick for several days, but is improving.

One of our most popular young ladies residing on North Fifth street, viz. who is always as much at home in one of the Indiana towns as here, has a most devoted sweetheart who sometimes visits here. Heretofore she has been successful in keeping her visit a secret from the other girls, but his last visit was made known to all her friends by someone who "caught out." So now he comes as often as he wishes, which seems to be quite often.

The many friends here and elsewhere of Mrs. James Gleaves, will regret to learn of her illness. Mrs. Gleaves has been ill for some time, but today her condition is somewhat improved.

Mr. Jack Bloomfield, who returned from college ill, is improving rapidly and will soon be out.

Mr. Wallace Weil's friends will be glad to learn that he has entirely recovered from his late spell of illness.

Miss Robie Piles is visiting in Murray.

The opera which some of the ladies were working to get up for the benefit of the Y. M. C. A., has been dropped for the present, but will likely be taken up successfully after Lent.

Mr. and Mrs. Will Ed. Covington will leave shortly for Hot Springs. Mr. Covington has been suffering from rheumatism this winter and expects to recover his usual good health after his visit to this resort.

Mrs. Weaks, accompanied by her daughter, Miss Sarah, and son, Mr. John Weaks, will leave shortly for Hot Springs, Ark.

Next week the young men will give a dance at the Campbell building, in Prof. Moses' dancing hall.

China Accedes to the Demands
of Russia and Trouble
May Result.

Belief That England May Be
Called Upon to Take Decisive
Action—Russian Reserves
Are Girded Out.

London, March 25.—The Pekin correspondent of the Times says: "China yesterday (Wednesday) agreed to all the Russian demands. Following are the concessions: A lease of Port Arthur for twenty-five years as a fortified naval base; a lease of Ta-Lien-Wan for twenty-five years as an open port and as the terminus of the Trans-Manchurian railway, with a right of fortification and the right for the Russians to construct a railway from Betume (in Manchuria, on the Sangary river) to Ta-Lien-Wan and port Arthur on the same terms as stipulated in the case of the Trans-Manchurian railway."

"China saves her face by retaining nominal sovereignty rights, which however, she is powerless to assert, the lease being equivalent to cession."

England May Take Action.
London, March 25.—The Times, referring editorially to the dispatch of its Pekin correspondent as to the Chinese concessions to Russia, says: "The news is so serious that it may compel England to take immediate action. If the Russian demands are allowed to prevail, we shall be obliged to recognize the fact that China is about to be rapidly reduced to the position of the Khanates of Central Asia, first terrorized and paralyzed and ultimately swallowed up by Russia."

Corean Trouble Threatened.
London, March 25.—The St. Petersburg Telegraph says: "All classes of the Russian army reserve have been warned to hold themselves in readiness to be summoned to service, and on account of the difficulties in Corea it has been decided to dispatch to East Asia a corps of 50,000 men, of the first line of reservists."

France May Intervene.
Paris, March 25.—"I foresee," said M. Demouras, "that the Chinese problem will be protracted, but France does not desire to witness the death of China. Such a catastrophe would shake the whole Old World. The French dominions in the extreme East are vast enough. We do not wish to augment them, but only to support and protect."

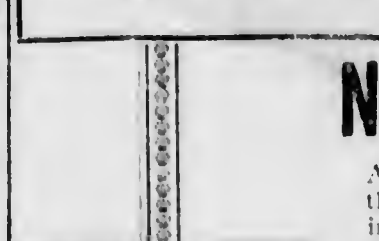

A papal consistory was held at Rome, at which four American bishops were called.

About the old story of the camel—how three philosophers heard about the animal and determined to investigate. The Englishman hunted through the folios of the British Museum, to find what had been said about the beast; the German went into his study, locked the door, lit his pipe and began to evolve a conception of the animal from his own consciousness; the Frenchman went down to Sahara to see.

YOU'VE heard a good deal about the great clearing-out sale going on here. This week we're selling ladies' shoes for \$1.00, \$1.50 and \$2.00, worth as high as \$6.00. UNITED STATES SENATOR PRITCHARD

Mrs. Pritchard Got Entire Relief from Rheumatism by Use of

Paine's Celery Compound.

United States Senate,

WASHINGTON, D. C.

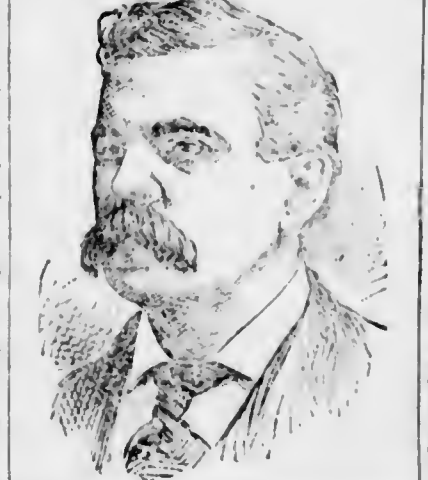

1919

*Washington, D. C.

*I found Paine's Celery
Compound an excellent remedy for
rheumatism. With best wishes I am
Yours J. C. Pritchard*
1820 I St. N. W.

Senator Pritchard of North Carolina
became prominent in the co-operative
movement in North Carolina, the suc-
cess of which resulted in his election
to the U. S. Senate to fill the term of
the late Senator Z. B. Vance. He
was re-elected to the Senate in 1917.
Mrs. Pritchard's testimonial to her
faith in Paine's celery compound is
reproduced above.

Below is a testimonial received from
the wife of U. S. Senator Warren of
Wyoming, whose distinguished ser-
vices for the country's best farming
interests are so well known.
"I was persuaded to try your
Paine's celery compound in the early
spring, when in a very run down con-
dition. The duties devolving upon
the wife of an official in public life
are naturally very exhausting, and I
was tired out and nervous when I
commenced using the remedy. I
take pleasure in testifying to the great
benefit I received from its use, and
can truthfully say that I am in almost

perfect health again. If I ever find
myself running down again, I shall
certainly give it another trial, and
will in the meantime recommend it to
every one needing it."
It is now time, if ever, to get health
and strength.
Nothing should now interfere with
building up weakened nerves and
purifying the blood.
Now is the time of year when rheu-
matism and neuralgia must be cured,
when debility and nervousness must
be checked, when bad health must be
mended—if one hopes ever to get
well.
It is not that rheumatism, neural-
gia, insomnia, and kidney troubles
are hard to cure—Paine's celery com-
pound has made a host of sufferers
well—but people make themselves
chronic invalids by neglecting the
early symptoms of disease.
Thousands of lives that are now
lost would not be prolonged if
Paine's celery compound were in

The transition from civilization to
barbarism is often as rapid as it is
remarkable," declared Judge Camp-
bell yesterday, at the city hall. "I
met a gentleman whose home was in
Washington City, one day on a
steamer," he resumed. "He had
change of some sort of a big in-
dustry at Rose Clark, Ill., and he re-
lated to me the personal experience
of a philanthropic friend of his who
also lived in Washington. It will
bear repetition.
"It seems that this philanthropist
felt a commission particularly for
slaves, and one day the idea struck
him to fit out an expedition to Africa
and he would go there himself. The
ship was prepared and started on her
crusade. Somewhere near the coast of
Africa she was wrecked, but the crew
and others aboard succeeded in reach-
ing the shore. They knew that the
country was inhabited by barbarous,
hostile people, but after lingering
about for some time in concealment,
they decided that it was decidedly
better to penetrate the interior and
run the risk of being devoured by
cannibals than to starve to death.
They finally reached an elevation,
from which they could look down
upon the surrounding country. In a
little grove they observed a band of
naked savages, with their spears and
point and gash ornaments.
"Up on a plateau was what ap-
peared to be a chief. He sat there in
all the dazzling splendor of savagery,
and seemed to enjoy the wild, weird
dances and incantations. He wore

no clothing, but was adorned with
strings of beads, shells, ivory teeth
and fragments of glass suspended
about his neck.
"Hunger finally drove the ship-
wrecked crew to approach the natives.
They were surprised to find them not
in the least hostile. The chief ad-
vanced, and with a broad grin on his
face, exclaimed: 'Why, hello, hello.'
"Boss," repeated the philan-
thropist in astonishment.
"Yes, boss," grinned the chief,
in response.
"He proved to be a waiter whom
the philanthropist had known in a
Baltimore hotel. He shipped aboard a
vessel which was wrecked and was
cast ashore.
"He fell in with the natives, and
knowing so much more than they,
he made chief, and the Yankee
shrewdness he had absorbed prompt-
ed him to accept the honor. He had
been there two years, and seemed
much happier among those uncivil-
ized savages than among the
Yankees.
"The philanthropist, before he left
the tribe, made the chief a present of
a pair of pants. The chief selected the
trousers himself from what wardrobe
the former had saved, but the philan-
thropist was completely dis-
gusted to see him put them on, and
walk off in ardent self-admiration.
"He simply wrapped the legs
around his waist and was happy.
Two years of savagery had complet-
ely cured him of civilization."

The doctors report considerable
increase in sickness during the past
several days. Lung trouble and ty-
phoid fever seem to predominate, and
the weather, in the opinion of phys-

the increase. Some of the doctors
are experiencing great activity after
the recent lull in business.
Tuesday night, at Fulton, accord-
ing to the Fultonian-Democrat, the
Rev. Lashie preached in the city hall
on the subject, "The Old Man,"
meaning the evil one. Just as he
had his audience impressed with the
power of the "Prince of Darkness,"
a sudden gust of wind caused a shut-
ter to smash a pane of glass in one of
the windows, the air rushing down
through an unobstructed opening in
the cap in the lower orifice to heat a
lively tattoo; and just then the Dem-
ocrat press began to roll with a rum-
ble that shook the building. This
combination caused a majority of the
audience to think that the "Old
Man" had assumed the disguise of

a cyclone, and forthwith there was a
stampede for the street. Lawyer Ed
Thomas seems to have been the first
man in the race, but Mike Fry, with
protruding eyes, was a close second.
Behind them came saint and sinner
with a scramble that made outsiders
think that Beelzebub and all his hosts
had been suddenly loosed.

It takes a farmer, with his droll
rural wit and repartee, to get away
with a fresh drummer sometimes.
The story is told of a farmer who
went to the proprietor of a grocery
here the other day and sold a barrel
of apples for \$2.
A drummer of the aforesaid type
was sitting on a box chewing gum
and looking gay, with his pants
pulled far above his footlock shoes,
to keep from losing the creases.
"Say, old fellow," he remarked,
"if you had that barrel of apples in
New York City, my home, you could
get \$6 for it."
"Yass," retorted the farmer, "an-
if I had a bar'l o' water in hell, I
could get erbout a dollar a glass for
it."

THAT VOICE
And the Trouble it Occasions
"Aunt" Susan Wilson—She
Was 'Witched by an
Enemy.
Young Man Who Used a Beer
Glass in Trouble—Tramp
Fined for Disorderly
Conduct.

"Aunt" Susan Wilson, of Clark
street, near Ninth, was arraigned in
Judge Sanders' court this morning
on a charge of disorderly conduct.
She is an aged woman who draws a
pension. Her son was killed in the
late war.
"Come around here, auntie, said
the court. 'Are you crazy?'"
"Crazy?" No I ain't. Doan
know what craziness am," was the
reply.
"Well, you are charged with
throwing rocks all over the neigh-
borhood last night. Did you do it?"
"Frowed a rock? Didn't frow
rocks all over de n'bo'hood,"
"What did you do it for?"
"I've tole you why bekase I did.
Some one frowed a 'voice' in my eah,
an' it is what frowed de rock."

"Who threw the voice in your
head?"
"Laws, I doan know! Somebody
couldn't whip me an' dey jes' frowed
dat voice in my eah an' 'witched
me!"
"What does it say?" asked Pros-
per, Attorney Wheeler Campbell
in evident amusement.
"It say cherting, I guess, 'cuss,
and I can't hear n' all whin de
voice talk. Sounds jes' lak a camp
meetin' ob debils, it sho' do. I've
had all sorts ob hoodoo doctahs to
git atfah it, but it's been dah five
years. I bathes my head in mineral
watah dah at Cap'n Cat's dah ebery
day."

To make a long story short the old
woman says she is hoodooed. She is
peaceable enough, however, her
neighbors say, except when she is
full of whiskey.
When the court inquired if she
ever drank whiskey, she said she did
not, but took "bitters" three times a
day. She finally admitted that
"bitters" had a good deal of whiskey
in them.
Judge Sanders left the case open,
and County Attorney Graves will
probably have her tried for lunacy.
Joseph Berry is wanted for strik-
ing a young man on the head with a
beer glass at a saloon night before
last. He has not been arrested as
yet, but the other young man was
before the police court this morning.
He was promptly acquitted, having
done nothing to provoke the diffi-
culty.
Edward Andrews, a tramp from
Owensboro, was arrested this morn-
ing by Special Officer Cheatum, of
the Illinois Central, on a charge of
disorderly conduct. He was found
in a stock car out about the "Y." A
fire had been burning in an old shovel
inside the car.
As the officer approached two of
the three tramps inside jumped out
and ran. He shot at them, but
missed.
Andrews claimed he was asleep.
When the pistol shot awoke him, he
was not awake when the fire was
made, and had nothing to do with it.
He declared further that he had no
people, and was journeying to Ar-
kansas to procure work. He was
fined \$10 and costs.

came in for his share of the fun at
the parlor concert last Thursday
evening. The doctor was down on
the program for a talk. The time
came and the doctor began. Little
Steward became much interested in
what his father was saying and pro-
ceeded to repeat after him, word for
word for the benefit, as well as to the
delight and amusement of all present.
His father struggled along as best he
could with this interruption until at
last he succumbed to the inevitable
amidst applause.

TWO FARMERS

Fell Ont This Morning—Both Arrested.

George Thomason and Tom Clark, two well known farmers of the Clark's river section, were arrested today by Officer Jones on a charge of breach of the peace.

The men had an altercation over saw handles, and used insulting language towards one another.

After being arrested they were carried into Judge Sanders' office, where the warrants were issued.

"What did you say he called you?" Judge Sanders asked Thomason, preparing to write.

"A liar and ——" replied Thomason.

"I wasn't used at all, then words weren't," interjected Clark. "Don't you put 'em down, either?"

Judge Sanders put them down, nevertheless, and the men will answer at Monday's session of court.

DIED IN MISSISSIPPI.

Mrs. Sarah Adams, Sister of Capt. Randall Ballowe, is Dead.

Capt. Randall Ballowe this morning received a telegram from Holly Springs, Miss., announcing the death of his sister, Mrs. Sarah Adams, who resided in Paducah many years ago.

The deceased was 76 years old, and had been in ill health for some time. Her husband was killed in the Confederate army.

Capt. Ballowe first received a message today three days old, announcing her serious illness. He telegraphed to ascertain how she was, as soon as the telegram was delivered, and an hour later received another dispatch stating that the funeral took place yesterday.

GROCERS WARRANTED.

They Violated the Market Ordinance, It is Alleged.

Half a dozen or more grocers were warranted this morning by Judge Sanders on a charge of violating the market ordinance, Market Master Ingram protesting the complaint.

The warrants were a source of considerable amusement at police headquarters, as the ordinance was only passed at the last meeting of the council, and was passed partially for the benefit of grocers. The section they are charged with violating is the one relative to the purchase of goods during market hours, for the purpose of reselling the same.

The cases are set for next Saturday, the regular ordinance court day.

PROFESSOR ROENTGEN'S X RAYS

What They Can Do and the Strong Statements Some Great Scientists Voluntarily Make.

Few people ever stop to think what wonders modern science and discovery are doing for us.

and women, because of the help these things give us and we should live longer and be happier.

And we do it for us.

Think, for example, of the wonderful Roentgen X Rays. Why, they easily show things that were once hidden from all view. You can now see the contents of a trunk or desk from the outside, although you cannot see what people are thinking about. But you can pretty nearly, for these remarkable X-rays will easily show you many of your internal organs and how they are working.

And this is very fortunate, for in the case of the two most important organs of the body it is the only absolutely certain way that any trouble with them can be detected.

You may live for years and think you are in good health and yet all the time those great organs of the body, your kidneys, may be slowly rotting away. Headaches, strange pains, loss of strength and energy, shortness of breath and a sickly appetite, all mean

or woman whose kidneys are in good order is ever long diseased.

Now science and discovery have done wonders, not only in locating the cause of all these troubles, but also in discovering the way to cure them. Strike at the root of the

MASONIC.

Plain City lodge No. 419 meets in regular communication on Tuesday night. Important business matters will be presented.

It is contemplated having a special meeting within a few weeks to confer the M. M. degree, at which time Mr. Frederick Speed, a Mason of national reputation, will be present. The lodges at Murray and other neighboring towns will be invited. A banquet of some character will be prepared, and it will doubtless prove an important event in Masonic circles.

ODD FELLOWS.

Both Manum and Ingleside lodges have been enjoying a boom this spring. Arrangements are being perfected to make the 75th anniversary of Odd Fellowship a great success. The session will be held at Mayfield this year, and will be largely attended by Paducah Odd Fellows.

Ingleside lodge will meet in special session on Monday night to confer the various degrees. A full attendance is desired.

KNIGHTS OF PYTHIAS.

On Monday night Benevolence lodge No. 31, of Mayfield, will visit Paducah lodge to witness work in all three ranks of the order. After the rank work light refreshments will be served. All members and visiting Knights are cordially invited.

ELKS.

Paducah lodge No. 217 meets tonight in adjourned session to initiate Mr. Charles Williamson, of Fulton.

A great deal of interest is being manifested in the annual reunion and meeting of the grand lodge at New Orleans on May 7th. Paducah Elks will be well represented, a number having signified their intention of attending.

The annual election of officers will occur next Thursday night.

GOLDEN CROSS.

The different commodories of the United Order of the Golden Cross are arranging for a reception to the members of the state executive committee, who will be here April 13 and 14. On Wednesday night, the 13th, the three degrees will be exemplified in a beautiful manner by Banner commandery, and all members who have not seen the work with the new necessities should strain a point to be on hand at that time. After the degrees have been conferred, the committee will turn

disordered kidneys. Paleness, puffing under the eyes, pains in the back, colored or brick-dust urine, chilliness and feverishness are pretty certain to indicate that you are on the road to Bright's disease. And you may not realize it.

Why? Because kidney diseases are the most mysterious of all known troubles, and they are hardest of all things to detect.

If you were asked to put your hand directly over the kidney, would you know just where to place it?

Few people would.

The fact is that the kidneys have few symptoms of their own, but possess nearly all the symptoms known to suffering humanity. "All roads lead to Rome," and it is equally true that the cause of nearly every physical trouble can be traced to one source, namely, the kidneys. As a great physician once said: "No man

The meeting at the Y. M. C. A. tomorrow at 1 p. m. will be addressed by Rev. W. K. Penrod. Subject, "Infidelity." For men only.

GRACE EPISCOPAL.—Rev. Thos. L. Dudley, bishop of the diocese of Kentucky, arrived in the city today and will be the guest of Rev. B. E. Reed during his stay. He will preach at the Leaven services in Grace church at 4:30 this afternoon and preach at both services Sunday—at night he will administer confirmation. All are invited to attend these services.

SECOND PRESBYTERIAN.—Services tomorrow as follows: Sunday school 9:30 a. m., J. R. Clark, superintendent; preaching in the morning at 11 o'clock and in the evening at 7:30. Men's prayer meeting after the night service. Services will continue during the week. Come.

GERMAN EVANGELICAL.—There will be regular services at the Fifth Street German church tomorrow. German in the morning at 10:30, English at night at 7:30. Sunday school at 9:30. A hearty invitation is extended to all.

The Ladies' Mite society meets next Thursday afternoon at the home of Mrs. I. Young, on Jefferson street.

FIRST BAPTIST.—Services at the usual hours at the First Baptist church, Fifth and Jefferson streets. Rev. W. K. Penrod, pastor. Subjects "Forgiveness of Enemies" and "Christ as an Influence." Sunday school at 9:30 a. m., Mr. J. M. Fuller, superintendent. Prayer meeting every Wednesday at 7:30 p. m. Bible class meets in the basement of the church every Friday evening. The public cordially invited to all these services.

Rev. Henry Miller will preach again tonight at the Second Presbyterian church, at 7:30 o'clock. Services tomorrow at 11 a. m. and 7:30 p. m. Everybody very cordially invited.

tree" is a good motto, and it is equally true with disease. Go right to the cause! Don't waste time in experimenting, for you may be growing worse all the while. Get the best—something that will put you in perfect health quickly and certainly. There is but one thing that will do this.

Here is what some great scientists of the world have to say: Dr. William Edward Robison, M. R. C. S. I. L. L. C. I., of England, writing upon this subject, declares: "I emphatically state that I have been able to give more relief and effect more cures by the use of Warner's Safe Cure than by all the medicines in the British Pharmacopoeia."

And here is what the great Doctor Bevan, of Germany, says: "I used Warner's Safe Cure for patients who suffer from kidney and liver diseases, and it restores them to complete health. I recommend it most cordially in all circles of my acquaintance."

There is in all these great discoveries of science one grand lesson for every one. That lesson is this: Do

not hesitate to avail yourself of the best discoveries and improvements of modern times for preserving your health and prolonging both your lives and your happiness. Remember that invention and discovery are at work constantly, and that you are entitled to the benefits they place within your reach. You cannot have the Roentgen X-rays thrown upon you all the while, but by watching your symptoms carefully, and guarding against the first approach of disease by a faithful use of the best of all known remedies, you may certainly live in health to a good old age.

Do not hesitate to avail yourself of the best discoveries and improvements of modern times for preserving your health and prolonging both your lives and your happiness.
